

Notification Date:8/17/2005

Dear Customer,

As we have previously announced in a letter dated December 15, 2004, you should have been informed of the release of test report EDR-5389. You should also be aware that test reports EDR-5336, EDR-5389, and others, will be referenced on the Certificate of Conformance that will be shipped with your order.

Your Purchase Order does not require certification to EDR-5389. However, it is necessary for us to include EDR-5389 on the Certificate of Conformance that will be shipped with your order.

From a supplier point of view, our Certificate of Conformance will meet the requirements of your purchase order. We have accepted your order and are proceeding to meet your delivery requirements. However, if you do not want us to proceed with your order, you should respond immediately to this notification by FAX to 1-919-557-8777, or e-mail to qanuclear@tycoelectronics.com within two business days of the Notification Date at the top of this memo.

If you have any additional questions about any of the nuclear grade Raychem products or certifications, please do not hesitate to contact either of us or reference our web site: <http://energy.tycoelectronics.com/nuclear>

Sincerely,

Jonathan Cornelius
Nuclear Product Manager
Tyco Electronics Corporation

Sincerely,

Wilbert Meadows
Nuclear Quality Manager
Tyco Electronics Corporation
